Election/Restriction

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-11, drawn to a method for delivery of a viral vector gene therapy agent to a mammalian organ, classified in class 424, subclass 93.2.
- II. Claims 12-16, drawn to a method of gene therapy, classified in class 424, subclass 93.6.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions involve two different methods with each method involving different outcomes. The method of Group I involves merely a delivery method for delivery of a viral vector to a target organ while the method of Group II involves a therapeutic method directed to treatment of a disease as an outcome. A search of both Groups would not be co-extensive because a search of the viral vector delivery system of Group I would not involve a search of methods of gene therapy for treatment of lung diseases.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Art Unit: 1636

A telephone call was made to Richard J. Minnich on 9/10/03 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
